01 / CONTEXT

From chat chaos to one clear system.

A neighborhood workflow, redesigned end to end.

At Chris lets customers browse a visual trilingual menu, customize 2–4 dish meals, order, and follow delivery from any phone browser.

For the owner

A real-time dashboard controls today’s menu, orders, drivers, and AI-generated sales insights — replacing slow, error-prone LINE messages.

02 / PROBLEM

Six gaps. One broken journey.

01

NO VISUAL MENU

No way to browse available dishes.

02

LANGUAGE BARRIER

The menu existed only in Burmese.

03

MANUAL TRACKING

Orders arrived as unstructured LINE chats.

04

NO CONFIRMATION

Customers never knew an order was received.

05

NO DELIVERY VIEW

No visibility after dispatch.

06

NO SALES DATA

No record of trends, dishes, or peak hours.

Order your way. Know every step.

TRILINGUAL MENU

Visual dish cards in English, Thai, and Myanmar.

FLEXIBLE BUILDER

2 dishes ฿50 • 3 dishes ฿65 • 4 dishes ฿75

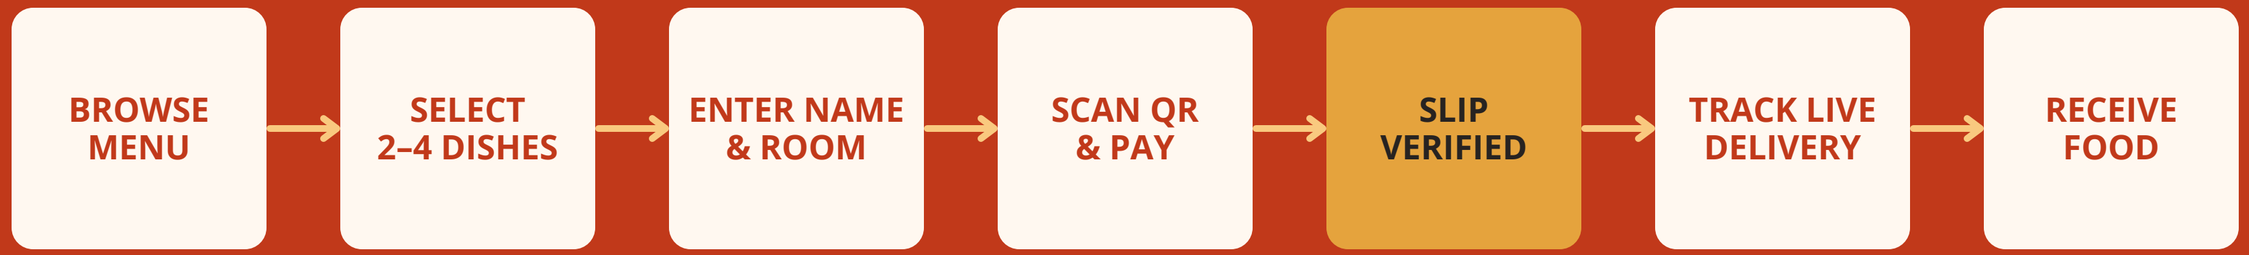
PROMPTPAY QR

Exact-amount QR; AI checks the slip.

LIVE TRACKING

Status, driver GPS, route, and ETA in real time.

Seven taps from hungry to happy.



No app download. Open the URL or scan the QR code in any mobile browser.

One control room. Every moving part.

REAL-TIME DASHBOARD

Six live charts, revenue, and pending queue.

MENU MANAGEMENT

Edit dishes, photos, sell-outs, promotions.

ORDER MANAGEMENT

Payment Review filter and one-tap updates.

DRIVER MANAGEMENT

Accounts, activation, and smart dispatch.

ORDER HISTORY

Date ranges and daily earnings.

SHOP OPEN / CLOSE

One toggle updates the customer storefront.

LIVE

WebSocket updates without refreshing

Built for the pace of a real lunch service.

06 / AI-POWERED FEATURES

Insights today. Foresight tomorrow.

BUILT + WORKING

AI Daily Sales Insights

A plain-language daily summary of top dishes, peak hours, revenue comparisons, and actionable suggestions — generated on demand with Gemini 3.8 Flash.

BUILT / 02

AI Payment Slip Verification

Gemini reads each slip; doubtful ones go to Payment Review.

PLANNED / 02

Smart Restock Alerts

Flags repeated early sell-outs and suggests preparing more.

07 / DRIVER SYSTEM

The last mile, fully connected.

INDIVIDUAL ACCOUNTS

bcrypt-hashed credentials managed by admin.

ON-DUTY TOGGLE

Only available drivers receive assignments.

AUTOMATIC DISPATCH

Nearest driver plus workload balancing.

LIVE GPS TRACKING

Route polyline, driver position, and ETA.

DELIVERY QUEUE

Order details, address, and route map.

PUSH NOTIFICATIONS

Instant alert for each new assignment.

A modern, real-time stack.

FRONT-END

Next.js 16
TypeScript
Tailwind CSS v4
shadcn/ui · Recharts

PLATFORM

Next.js API Routes
Vercel deployment
Git · GitHub
Dynamic PromptPay QR

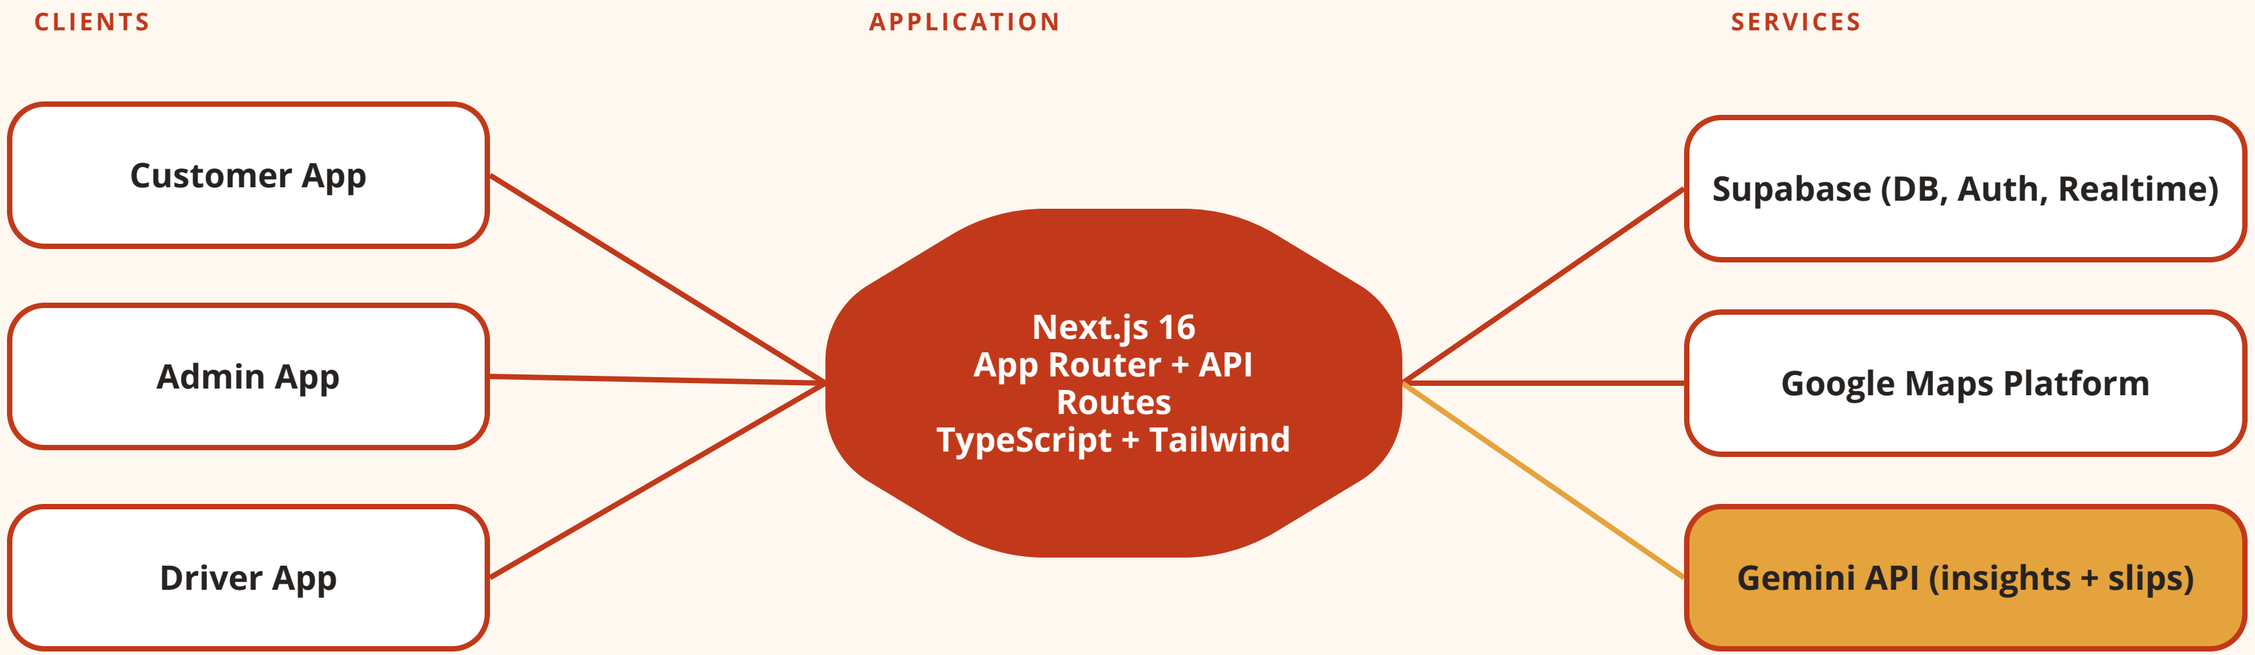
DATA + AUTH

Supabase PostgreSQL
Google OAuth + guest
Driver bcrypt auth
Object Storage

CONNECTED

Supabase Realtime
Gemini 3.8 Flash
Google Maps Platform
Web Push + VAPID

One platform. Three experiences.



Realtime subscriptions keep customer, admin, and driver views synchronized.

Try the system live.
